

Pankaj Khandpur is Creative Director at both Tata Elxsi's Visual Computing Labs, and at yFX, the visual effects studio at Yash Raj Films, having setup both studios in 2002, and 2016, respectively.

Apart from visual effects for movies, Pankaj is creatively involved with 3D animation, virtual and augmented reality, visualisation, and now, virtual production.

An industry pioneer, active in CGI for the last 40 years, Pankaj and his teams have won several Indian and International awards for their work in visual effects and animation, including the President of India/National Awards (thrice), multiple Filmfare and other industry Awards, and a nomination at the Visual Effects Society (VES) USA awards.
